Pediatric and Family Health

From the Department of Community Health...

The MI Healthy Baby Mobile website was launched on Friday, December 10, 2011. The goal of the mobile site is to raise the awareness of women and men and expectant parents about the need for preconception, interconception, prenatal care and resources on parenting and family support via electronic mobile support. Please visit us at:

<http://www.mihealthybaby.mobi/>

Child Care and Education

Great Start to Quality

Great Start to Quality is the largest quality improvement project Michigan has implemented. Great Start to

Quality has an ambitious goal to improve the quality of early learning and development programs especially programs serving children with high needs.

Great Start to Quality launched to include licensed early learning and development programs, and continues to support unlicensed subsidized providers. The Regional Resource Center role in implementing Great Start to Quality is crucial to its success. The Regional Resource Centers are responsible for coordinating and providing foundational supports and services to improve quality for early learning and development programs and unlicensed subsidized providers, and coordinate and provide intensive consultation and coaching to programs serving children with high needs. Visit our website at:
